COMPLETE FOOD INDUSTRY SOLUTIONS

Regal Rexnord is helping
to feed the world

The Food industry is a complex chain of diverse global businesses that supply most of the world's food. Achieving such an important task requires efficiency of execution throughout the entire supply chain. From agriculture to manufacturing to distribution, minimizing waste and maximizing performance are top of mind objectives for all.

Our industry-leading breadth of food-safe, environmentally-conscious products and digital monitoring solutions can be optimized together to maximize throughput, simplify adherence to rigorous industry standards and achieve cost-competitiveness.

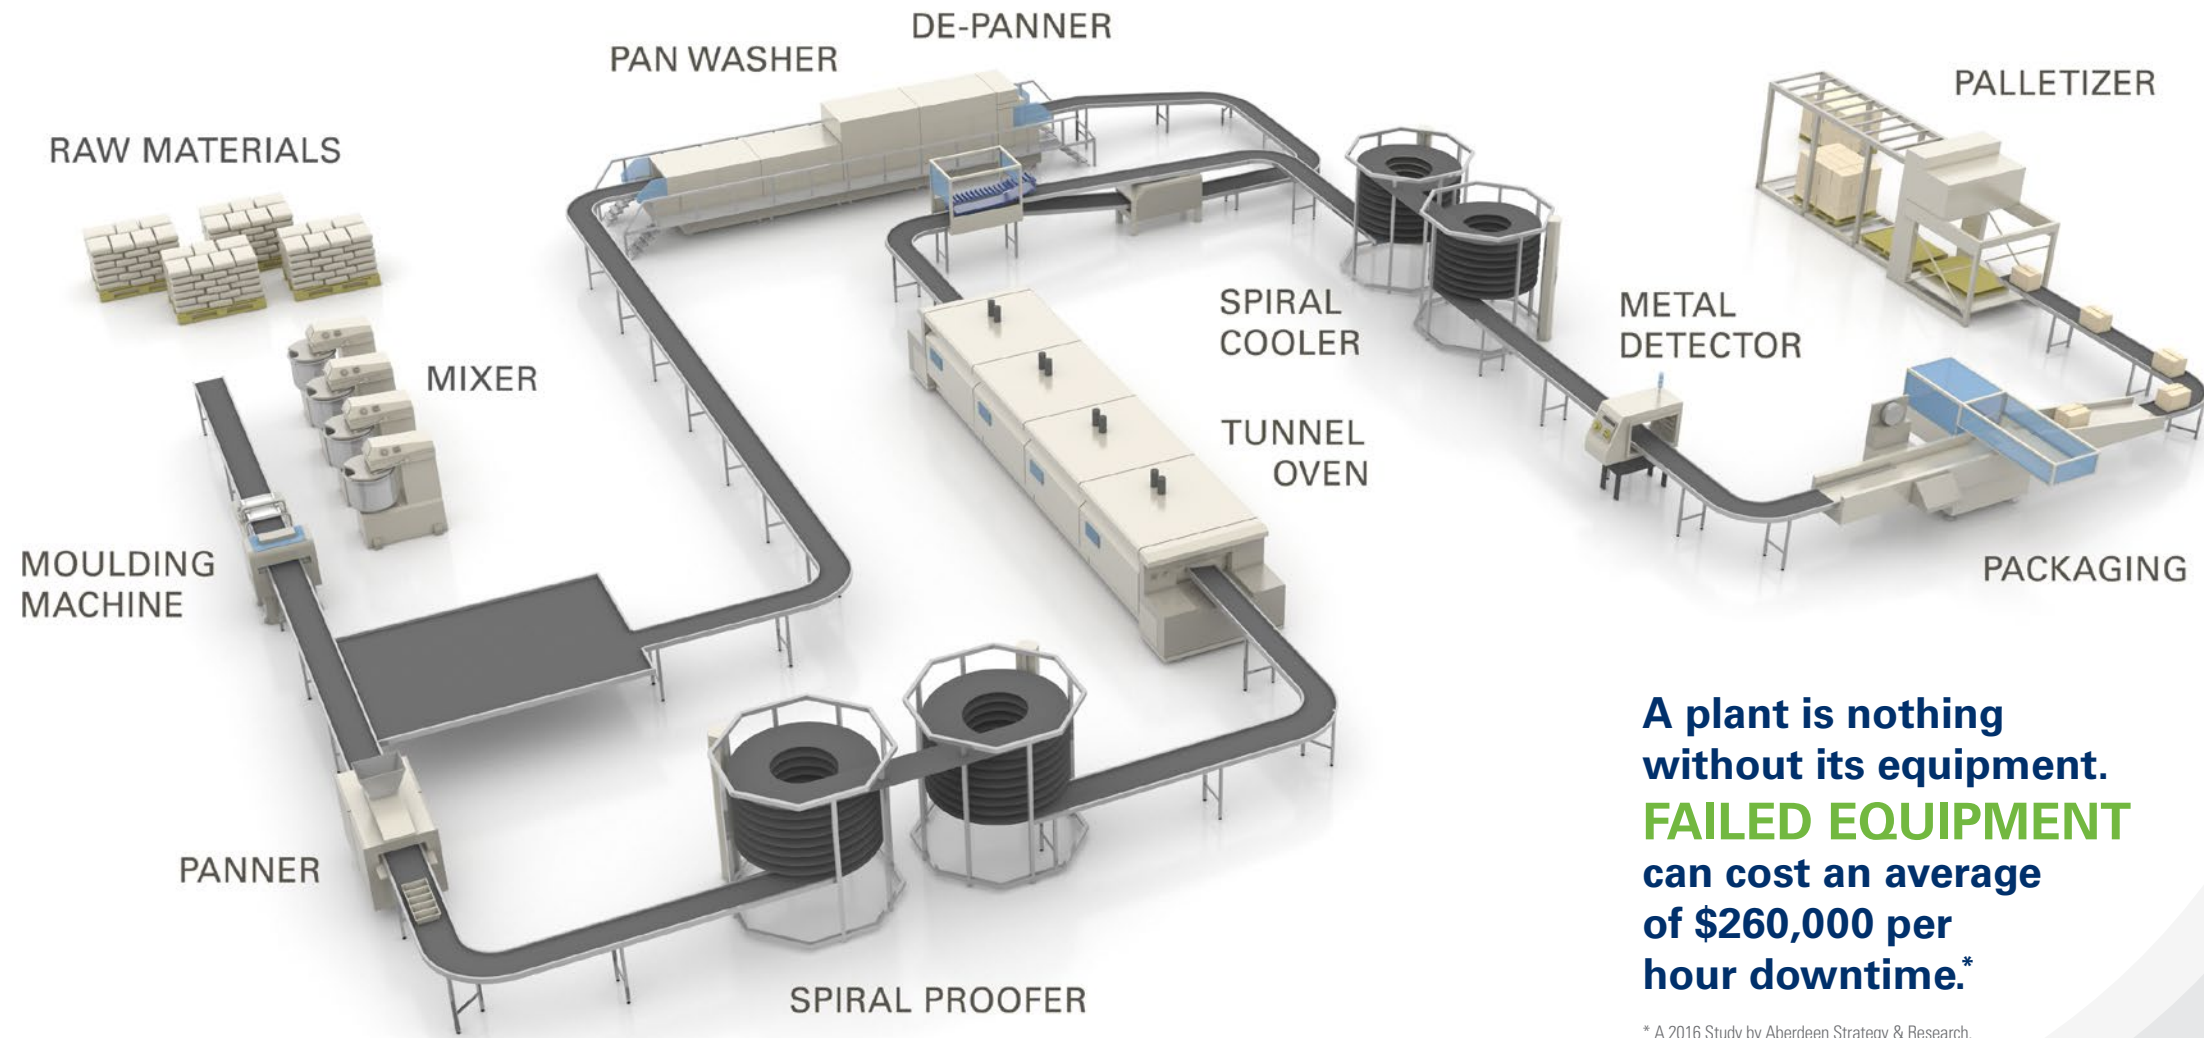

REGAL REXNORD MISSION

- Regal Rexnord is committed to energy-efficiently converting motion, taking into consideration the world and protecting our resources.
- We understand your goals and challenges. We'll show you how to meet your objectives while minimizing pain points.

BAKERY PRODUCTION

A plant is nothing without its equipment. FAILED EQUIPMENT can cost an average of \$260,000 per hour downtime.*

* A 2016 Study by Aberdeen Strategy & Research.

REMOTE CONDITION MONITORING

Perceptiv™ remote condition monitoring and diagnostics applies 135 years of industry knowledge to help users achieve a predictive maintenance (PdM) strategy for a reliable facility. Simplify implementation with consultation and installation services, quickly start detecting issues with IP69K certified sensors, and gain actionable insights with reports from certified analysts.

MOTORS

We offer a complete line of motor options that meet rigorous industry standards, including IP55, IP56, and IP69K-certified washdown motors.

- White Duck Series
- Washguard II
- SST Duck
- Premium Stainless Duck
- Extreme Duck Ultra

GEARING

Grove Gear and Hub City Stainless Steel reducers provide superior corrosion protection and are IP69K certified to protect against moisture and particles that lead to gearbox failure and unplanned downtime.

- Grove Gear® SS IRONMAN
- Hub City® SS HERA

BEARINGS

Our high-performance bearings are available in a wide range of materials, configurations, housing types and locking styles. Our portfolio offers options for heavy-duty, high capacity, corrosion resistance, and extreme temperatures, making them ideal for minimizing maintenance, increasing uptime, and overall product longevity.

- Sealmaster® Stainless Steel Gold™
- Sealmaster PN Gold
- Sealmaster High Temperature Series
- Link-Belt®
- Rollway® Ball Bearings
- Rollway Spherical Roller Bearings
- McGill® Stud Rollers
- McGill Yoke Rollers

CONVEYING

Hygienic, flexible belts built to last. Regal Rexnord delivers a variety of hygienic belting solutions that improve uptime, maintain product orientation, and increase belt strength to maximize production efficiency.

- Rexnord® 1600 Series KleanTop®
- KleanTop® PacTitan Pro™
- Precision
- Cam-Grid®
- Cambri-Link®

COUPLINGS

High misalignment and dampening capabilities with Replace-in-Place element design that eliminates the need to remove driving or driven equipment when replacing elements. This design simplifies and accelerates equipment installation and replacement. Hub and shoe are available in a stainless steel option for washdown capability to meet hygiene standards.

- Rexnord® Omega® Elastomeric

BEARINGS

Sealmaster, Rollway, and McGill bearings offer a variety of corrosion resistant options that are ideal for demanding washdown environments. These bearings are designed specifically to reduce maintenance downtime, and increase durability & longevity of the product resulting in a reduced total cost of ownership.

- Sealmaster® Stainless Steel Gold™
- Sealmaster PN Gold
- Sealmaster PN Gold USRB
- Rollway® Stainless Steel
- McGill® Stainless Steel Stud Rollers
- McGill Stainless Steel Yoke Rollers

COUPLINGS

High misalignment and dampening capabilities with Replace-in-Place element design that eliminates the need to remove driving or driven equipment when replacing elements. This design simplifies and accelerates equipment installation and replacement. Hub and shoe are available in a stainless steel option for washdown capability to meet hygiene standards.

- Rexnord® Omega® Elastomeric

CONVEYING

Safe, durable solutions every step of the way. Regal Rexnord provides you with a wide array of quality belting solutions that can be used throughout your process to meet your productivity goals, while maintaining food & employee safety.

- Rexnord® 1015 Flat Top®
- Chain Drive
- DuraFlex®
- KleanTop® PacTitan Pro™
- Cam-Grid®
- Cambri-Link®
- Duralite®

GEARING

Grove Gear and Hub City Stainless Steel reducers provide superior corrosion protection and are IP69K certified to protect against moisture and particles that lead to gearbox failure and unplanned downtime.

- Grove Gear® SS IRONMAN
- Hub City® SS HERA

MOTORS

Whether you need a motor that handles an occasional splash or a solution that handles continual washdown, our broad range of LEESON® Washguard™ industrial-duty motors can take it.

- White Duck Series
- Washguard II
- SST Duck
- Premium Stainless Duck
- Extreme Duck Ultra

REGAL REXNORD™

POWERTRAIN SOLUTIONS

**Stop seeing individual parts.
Start seeing unlimited possibilities.**

Regardless of your objectives or the challenges with your application, Powertrain Solutions can help you achieve your unique goals. No matter what your application looks like, it relies on many components, all working together. But not all components are made to work together reliably and efficiently. Powertrain Solutions has the insight, experience and expertise to engineer your collection of components into a fully optimized system — giving you solutions that boost efficiency, improve reliability and performance, lower costs and simplify ordering and logistics.

**Any challenge.
Any industry.**

Powertrain Solutions has the product knowledge and application expertise to build solutions for any industry.

- Mining & Construction
- Metals & Industry
- Food & Beverage
- Power Generation
- Oil & Gas Turbines
- Renewable Energies
- Material Handling
- Warehouse & Distribution
